# TripIt

ORGANIZE YOUR TRAVEL

In order to create data flow between **Tangerine Travel** and your **TripIt** account, you must authorize data access at tripit.com for our application.

In order to do this, please begin by visiting the following link:

[TripIt Account Holder Authorization Link](#)

**Please Note: Before proceeding you must already be subscribed to TripIt.**

Please enter the the email address you wish to associate with your TripIt account. You must have an account with tripit to use this functionality.

© Copyright 2006-2011 - All Rights Reserved — Agency Technology, LLC

- In the form, you will enter the email address you wish to have associated with your TripIt account.
- This must be the same email address that Tangerine Travel has on file in your traveler profile and is the email address the agent enters in the reservation when emailing an itinerary.
- This will create an association so that every itinerary that is emailed to the address entered will be transmitted automatically to TripIt via their Application Programming Interface (API).

**Itineraries will auto-forward to TripIt after Tangerine Travel has completed QC and ticket issuance.**

The itinerary cannot be manually sent to [plans@tripit.com](mailto:plans@tripit.com), an error will occur.
